# Cold Climate HVAC 2021

The 10th International Cold Climate Conference

**Tallinn, Estonia 13 – 16 March 2021**

Next, the 10th International Cold Climate Conference will be organized in Tallinn, Estonia 13 – 16 March 2021. Organisation is shared in between Tallinn University of Technology, from where Jarek Kurnitski will be the president, and EKVÜ, an Estonian Society of Heating and Ventilation Engineers, who will be responsible for programme especially for the practitioners. It is planned to extend the scope of the conference to HVAC and energy and to make conference attractive for PhD students with offering conference papers indexed in Scopus as well as another technical paper category for practitioners.
